

# SETTLERS OF AMERICA SCORING NEW 2023

Settlers of America rules do not include a numerical score, but our tournament scoring system requires numbers which reflect the relative performance of each player. Therefore, we have implemented the following scoring method:

Each Cube Delivered = 25 points

Each Settlement Placed or Built = 10 points (includes the three original)

Each Train on the Board = 2 points (includes the starting train)

Each Track on the Board = 1 point (includes the original track)

Please make sure you do NOT clean up the game until scoring is completed.

A scoring aid sheet is available to help with the calculations. If one of these is not on your table, please ask someone in TGA Headquarters. Please fill in this table then record the final scores on the front of the score sheet as always.

*Feedback is welcome after you have played with this change. Please speak to or email Jeff Jackson ([Rules@traingamers.com](mailto:Rules@traingamers.com)) or someone else on the Rules Committee.*
