

Metro Rules Clarifications 2021

Several Metro rules have been widely misunderstood or poorly translated. These are the definitive TGA rules:

- Multiple players may be on the same point on the scoring track at the same time.
- Any play that would result in a route scoring 1 point is illegal
- A tile may NOT be placed so the tracks ON THAT TILE ONLY exit the board from the same square where the route began (without leaving the square)
- A tile MAY BE PLAYED such that the route scored exits from the same square where it began, as long as the route first leaves the square (thus scoring at least 2)
- If no legal tile play exists (usually near the end of the game), a player may be forced to make an illegal play with a score of 1 point
- A Metro game must be played to completion for it to count.
- Cable Car may be played as an alternative to Metro if all players agree.
