

SETTLERS OF AMERICA SCORING

Settlers of America rules do not include a numerical score, but our tournament scoring system requires numbers which reflect the relative performance of each player. Therefore, we have implemented the following scoring method:

Each Cube Delivered = 10 points

Each Settlement Built = 8 points

Each Train on the Board = 2 points

Each Track on the Board = 1 point

Please make sure you do NOT clean up the game until scoring is completed.

A scoring aid is printed on the back of each score sheet to help with the calculations. Please fill in this table and record the final scores on the front of the score sheet as always.

Feedback is welcome after you have played with this change. Please speak to or email Jeff Jackson (Rules@traingamers.com) or someone else on the Rules Committee.
